

## Prepack barcode and carton label

(to be order on the site <https://www.checknet-europe.com>)

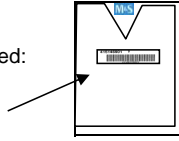

### 1) Prepack barcode label

### Appendix 17

In case the order is for prepacks, Contractor will be supplied with barcodelabels

Each prepack polybag must be labelled:

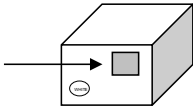

The barcode contains the article- and prepacknumber  
Example of article 415146, prepacknumber 901:

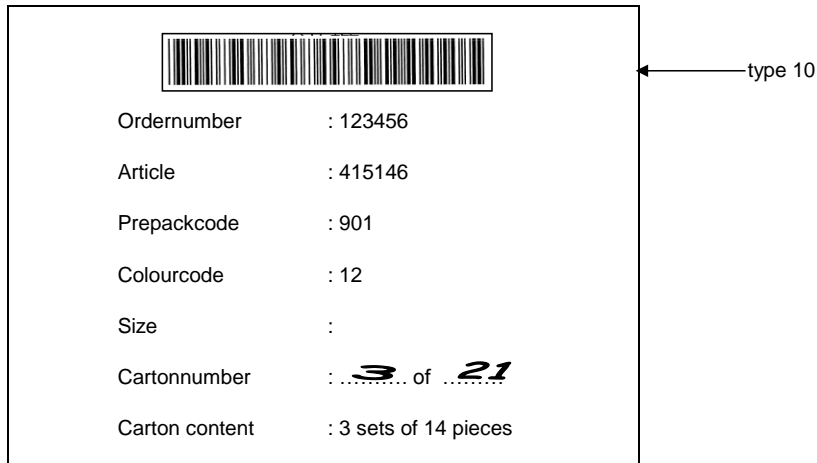

Discard any overage of barcode labels (do not re-use on another order!!)

### 2) Carton label

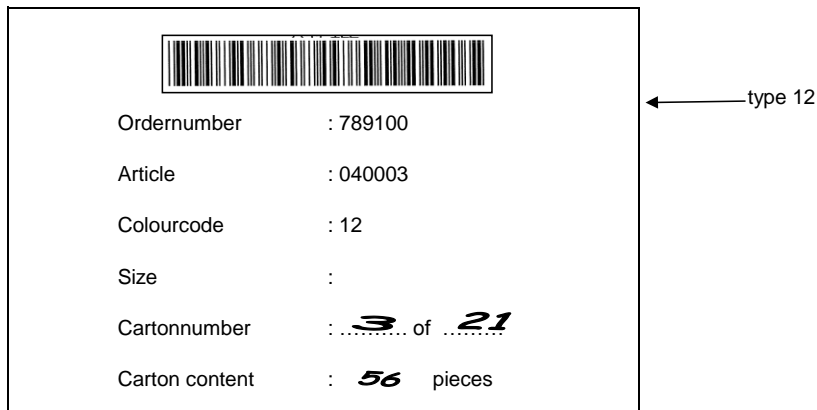

Each carton must be labelled. Please use the right label for units and prepacks.  
In no case, a prepack label can be used for units or a unit label for prepacks.  
Label must be positioned at the top right-hand corner of the short side of the carton:

Example of a label for prepacks:

Example of a label for units:

Please note!:

- "cartonnumber" and "carton content" must be filled out by Contractor
- the other previous marking requirements are superceded by the label
- discard any overage of caselabels supplied (do not re-use on another order!!)
